PRESIDENCE DE LA REPUBLIQUE

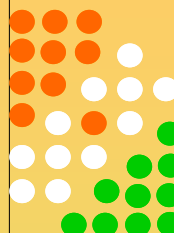

HAUT COMMISSARIAT A L'INITIATIVE 3N

TOWARDS A SUSTAINABLE FOOD SECURITY IN NIGER

BRIEF DESCRIPTION:

 In Niger, from 1960 to today, significant resources have been invested in the agricultural sector. Despite these remarkable efforts, food production deficits persist, subjecting populations to food insecurity from year to year.

The 3N Initiative « **Les Nigériens nourrissent les Nigériens** » (Nigeriens feed Nigeriens) is the result of a broad national consensus to address immediately the structural causes of food insecurity to ensure sustainable Food Security while satisfying immediate food needs of vulnerable groups.

The 3N Initiative is a multisectoral strategy focused on households, communities, and country resilience to food security. It is articulated around public-private partnership and civil society organizations to accelerate the development of a sustainable agriculture.

Increasing and diversifying agriculture production

Improving rural infrastructure and trade-related capacity for market access

It also integrates aspects related to climate change and takes into account the specific needs of women and vulnerable groups.

The 3N initiative will promote an increased mobilization of internal and external resources in support of agricultural development. It is the master plan and foundation for all planning in the sector.

Improving nutrition

Strengthening the resilience of vulnerable households and communities and managing risks and crisis

VISION

Niger being a country undergoing full economic rebirth, it will be able to withstand the risk of food insecurity and agriculture will play its role as a vector of economic growth.

OBJECTIVE

"To contribute to the protection of the Nigerien people from hunger and to ensure their full participation in national production and the improvement of their income."

Creating enable environment for sustainable food security and coordinating multi-sector and multi-stakeholder interventions
